

Can your Business afford the flu?

COMMIT EARLY TO ENSURE VACCINE STOCK IS AVAILABLE FOR YOUR WORKPLACE CLINIC

WORKPLACE VACCINATION IS A SMART INVESTMENT - Say goodbye to flu in your workplace, with a corporate flu vaccination program. Enjoy a corporate discount for flu shots

- A flu-infected employee may be absent for four to six days.
- Flu could impair a worker's performance by about 20–40% which is comparable to the effect of alcohol consumption
- Flu is highly contagious. As one employee after another falls ill, the impact on your business may linger for weeks.
- Flu may have a significant economic impact on your business.
- Healthy employees vaccinated against the flu take nearly half the number of sick days and nearly half the number of doctor's visits for upper respiratory illnesses, compared to unvaccinated workers

Your Investment

\$30+gst for employees, larger groups will have discount rates.

NOTE: \$300+gst minimum call out fee (includes x10 people)

Scheduling and operating hours

We are available during your work hours for your convenience.

COMMIT EARLY TO ENSURE VACCINE STOCK IS AVAILABLE FOR YOUR WORKPLACE

Please complete the form online (<https://call-the-doctor.com.au/flu-vaccine-ctd-form/>) or email back number of staff requiring flu vaccinations.

How the service works:

We come to your business and provide employees with a Flu Vaccination

We provide

- Fluvax brochures and other promotional material (including posters) to advertise the date, time and site of the clinics if required
- consent forms and Consumer Medical Information sheets
- all clinical supplies to safely and professionally administer the vaccine
- safety equipment in case of emergency
- sharps containers and disposal
- and of course a lollipop for each employee vaccinated!

About Us

We believe prevention is better than cure, and as such patient care is our highest priority.

We work with Call The Doctor to ensure we use highly trained Doctors to administer Flu Vaccinations to your staff on site. This leads to minimal disruptions to your workplace so productivity is not affected.

We specialise in onsite workplace flu vaccination services, delivering a fully managed and coordinated program to your workplace at a time convenient to you for competitive prices.

Our flu vaccination clinics are conducted by qualified and experienced registered Doctors and we use the Australian manufactured CSL vaccine (Fluvax).

Our clinicians will carry all the required equipment and are trained to carry out emergency procedures. Our Doctors always work within the current vaccine storage guidelines and carry the NHMRC Australian Immunisation Handbook.

Help protect others and meet corporate responsibility goals

- The benefits of workplace vaccination extend beyond helping protecting the health of vaccinated employees
- It also helps prevent flu spreading to other staff and to clients
- Purchasing an Australian-made vaccine helps support other Australian businesses
- We are a Hobart locally owned and operated company.

Flu Vax in the workplace can result in:

- Increased productivity
- Reduced absenteeism among workers
- Fewer lost work days due to influenza-like illness
- Fewer days with reduced productivity.
